Lost & Found System - Test Cases (7-9)

Test Case 7: Date lost/found (cannot be in the future)

Field	Details
Test Case ID	TC-LFS-BVA-01
Test Scenario	Verify the system rejects a date entry set to exactly one day beyond the current date.
Preconditions	1. User is logged into the system. 2. User is on the 'Post Lost Item' or 'Post Found Item' page.
Test Steps	1. Navigate to the 'Date' field in the reporting form. 2. Attempt to select tomorrow's date (Current Date + 1 Day). 3. Try to submit the form.
Input Data	- Date Selected: Current Date + 1 Day
Expected Result	The system rejects the input or disables future dates in the calendar picker. An error message (e.g., 'Date cannot be in the future') is displayed if submitted.
Actual Result	(To be completed during test execution)
Status	(Pass / Fail)
Remarks	Validates boundary value just above the maximum valid boundary (Today) using Boundary Value Analysis (BVA) technique.

Test Case 8: Photo size limit (8 MB)

Field	Details
Test Case ID	TC-LFS-BVA-02
Test Scenario	Verify the system rejects an image upload that exceeds the maximum size limit by the smallest measurable margin.
Preconditions	1. User is logged into the system. 2. User is on the 'Post Found Item' page.
Test Steps	1. Click on the 'Upload Photo' button. 2. Select an image file that is 8.1 MB in size. 3. Observe the system's upload validation behavior.
Input Data	- File Size: 8.1 MB
Expected Result	The upload is blocked, and the system displays an error message stating 'File size exceeds 8 MB limit.'
Actual Result	(To be completed during test execution)
Status	(Pass / Fail)
Remarks	Validates boundary value just above the maximum limit (8 MB) using Boundary Value Analysis (BVA) technique.

Test Case 9: Owner rating of finder (1–5 stars)

Field	Details
Test Case ID	TC-LFS-BVA-03
Test Scenario	Verify the system rejects a rating attempt below the minimum valid star threshold.
Preconditions	1. User is logged into the system. 2. A lost item has been successfully returned, triggering the rating prompt for the finder.
Test Steps	1. Leave the star rating selection empty or attempt to submit a 0-star rating. 2. Click 'Submit Rating'.
Input Data	- Star Rating: 0
Expected Result	The system prevents submission and prompts the user to select a minimum of 1 star.
Actual Result	(To be completed during test execution)
Status	(Pass / Fail)
Remarks	Validates boundary value just below the minimum valid boundary (1 star) using Boundary Value Analysis (BVA) technique.
