Lost & Found System - Test Cases (1-3)

Test Case 1: Lost Report - Broad Description (Required)

Field	Details
Test Case ID	TC-LFS-EP-01
Test Scenario	Verify that the system rejects a lost item report when the mandatory 'Broad Description' field is left empty.
Preconditions	1. User account is active and logged into the system. 2. User navigates to the 'Post Lost Item' page.
Test Steps	1. Fill in all mandatory fields (Item Name, Date, Location, Category). 2. Leave the 'Broad Description' field empty. 3. Click the Submit button.
Input Data	- Broad Description: "" (Empty string)
Expected Result	System blocks submission and displays an error message indicating that the description is required. The report is not saved.
Actual Result	(To be completed during test execution)
Status	(Pass / Fail)
Remarks	Validates invalid data partition (missing mandatory data) using Equivalence Partitioning (EP) technique.

Test Case 2: Found Report - Photo (Mandatory)

Field	Details
Test Case ID	TC-LFS-EP-02
Test Scenario	Verify that the system prevents the submission of a found item report when no photo is uploaded.
Preconditions	1. User account is active and logged into the system. 2. User navigates to the 'Post Found Item' page.
Test Steps	1. Fill in all required text fields (Item Name, Date, Location, Category, Description). 2. Do not attach or upload any image file in the 'Photo' section. 3. Click the Submit button.
Input Data	- Image Upload: null (No file attached)
Expected Result	The submission fails, and the system prompts the user with an error message to upload a required photo. The report is not saved.
Actual Result	(To be completed during test execution)
Status	(Pass / Fail)

Remarks	Validates invalid data partition (missing mandatory file) using Equivalence Partitioning (EP) technique.

Test Case 3: Category and Location Fields

Field	Details
Test Case ID	TC-LFS-EP-03
Test Scenario	Verify that a report is successfully categorized and saved when selecting valid options from the category and location dropdowns.
Preconditions	1. User account is active and logged into the system. 2. User navigates to the 'Post Lost Item' or 'Post Found Item' page.
Test Steps	1. Fill in the Item Name and Description fields. 2. Click the 'Category' dropdown and select 'Electronics'. 3. Click the 'Location' dropdown and select 'Central Library'. 4. Click the Submit button.
Input Data	- Category: "Electronics" - Location: "Central Library"
Expected Result	The system accepts the inputs and successfully saves the item report. The item is indexed under the "Electronics" category and "Central Library" location.
Actual Result	(To be completed during test execution)
Status	(Pass / Fail)
Remarks	Validates standard acceptable inputs (valid partition) using Equivalence Partitioning (EP) technique.
